Natural hair always have strong hair porphyrin breakage with less breakage. Hair is stronger as it can handle chemicals from hair die better than permed hair.

Relaxes only makes your hair breaks while natural hair ~~breaks~~ sustain AS of bond proteins.

Healthier hair that's not stripped away of natural oils.

**Cite Evidence (Quote & Website)**

Major increase in daily maintenance. No longer die the day when you can brush your doobie wrap and go. Also natural hair needs to be moisturized daily (co-wash at least twice a week and detangled as often as possible).

**Argument**

whenever you trying to straighten your natural hair it tends ~~break~~ what to stay in place due to humidity of hot weather conditions and starts to frizz.

# Go Natural: Cons - Against

**Argument**

The excessive use of moisturizing daily, the constant use of brushing your hair natural hair.

**Cite Evidence (Quote & Website)**

Straight styles don't last as long because humidity ~~causes~~ frizz. Also, if you avoid hair spray, sleek styles may not stay in place. Straight styles don't last as long because humidity causes frizz. Also, if you avoid hair spray, sleek styles may not stay in place.

**Directions:** In the space provided, using today's discussion, respond to the following prompt citing evidence from today's Socratic seminar:

**QUESTION:**

Yes, it more beneficial to use hair relaxer. Using hair relaxer start making hair grows much faster and quicker. It makes hair shiny, soft and smooth. Throughout our discussion sequence, each classmates states their disadvantages ~~but~~ therefore hair relaxer is beneficial. "Hair grows much more faster. The creamy crack isn't irritating my extremely dry scalp. Extremely healthy head of hair." Natural hair is way too expensive and to contain so relaxing is much easier and wiser. Relaxing your hair is one of the best choices you can ever make; it makes your hair become healthier. "Some people seem to think going natural is less maintenance. Yeah not, such so much effort goes into conditioning "training", deep conditioning, detangling and curly product research in order to maintain a healthy head of natural hair." In Conclusion Socratic seminar changes did not changed my opinion on hair relaxer, therefore it makes me fully aware on different things hair relaxer can do. Thus hair relaxer makes my hair grows and become soft and shiny.
